

C - 280 White and 280 Color

54 -- 40 OR FIGHT

When made with pink, rose or yellow with green the effect becomes that of a bud, especially if the two color squares in the center are green, leading up to the green triangles. The block is 12 inches square

and may be set diagonally or straight with plain blocks. Strips might also be used if one prefers. For a quilt measuring about 84x96, setting the blocks straight, and using two 3-inch strips for a border, 21 pieced blocks and as many plain ones are needed. Treat as a 9-patch.

You will need about 4½ yds. white, 1½ yds. green, 1 yd. pink.

We suggest that you trace the lines of this pattern on cardboard and make your cutting pattern from that. You will then be able to duplicate the pieces should they become lost or worn.
